

11th ELTR Workshop

9th ELITA Meeting

**FROM STATIC TO DYNAMIC LIVER
PRESERVATION: ENTERING A NEW ERA**

**24 - 25
November
2016
Paris,
France**

ELITA BOARD

- Christophe Duvoux** ____ Chair
Roberto Troisi _____ Vice-chair
Wojciech Polak _____ Secretary
Gabriela Berlakovich ____ Treasurer
René Adam _____ ELTR Custodian
Luca Belli _____ Board Member
William Bennet _____ Board Member
Giacomo Germani _____ Board Member
Silvio Nadalin _____ Board Member
Martin Oliverius _____ Board Member
Krzysztof Zieniewicz ____ Board Member

ELTR COORDINATING COMMITTEE

- René Adam** _____ Chair
Vincent Karam _____ Data Manager
Valérie Cailliez _____ Biostatistician
Anne-Marie Lamé rant __ Secretary

11th ELTR Workshop

24 - 25 November 2016, Paris, France

9th ELITA Meeting

**FROM STATIC TO DYNAMIC LIVER
PRESERVATION: ENTERING A NEW ERA**

This
9th ELITA Meeting
will continue the tradition of
the successful past ELITA Meetings
and will be an opportunity to celebrate the
30th anniversary of the ELTR Registry.

The aim of this meeting is to bring together experts and specialists caring for liver transplant patients to discuss the state of the art and pending questions on liver preservation and perfusion in a joint, 2-day meeting.

Target Group:

Experts in liver and intestinal transplantation as well as specialists from other fields of medicine, intensivists, hepatologists, radiologists and transplant coordinators.

11th ELTR Workshop

24th November

30th ELTR ANNIVERSARY

Past, Present and Perspectives of ELTR.

- The Birth of ELTR.
- The Evolution since 30 years.
- What did ELTR bring to LT in Europe?
- Sponsoring of ELTR.

DATA MANAGEMENT PROCEDURE

The New ELTR Platform.

- Data Management.
- Statistical Results.
- Discussion: What implication for contributing centers?

Quality Control of ELTR data.

- Audit visits to the centers.
- Data Exchange with Organ Sharing Organizations. Extension of ELTR to Non-European Countries, Present and Future.
- Results of a Survey on Center Opinion about ELTR.

SCIENCE

Example of the impact of ELTR studies on Clinical Practice.

- Allocation of organs in Europe: what are the different systems?
- HCC: What patients to transplant with the current Knowledge?
- Guidelines for equity of allocation of HCC vs Non HCC patients.
- New Antiviral therapy for HCV patients: recommendations for timing of treatment in transplant candidates. What expected change in the indications for LT for cirrhosis and HCC?
- Post-transplant immunosuppression: Where are we? Unmet medical needs.

STATIC COLD STORAGE

Donor Characteristics and Liver graft function recovery.

- **Primary Non Function or Early graft dysfunction:**
Definition, predictive factors and impact on patient outcome.
- **What is a « marginal » DBD donor? Where are the limits to reject a liver?**
Impact on patient outcome and practical recommendation in term of Donor / Recipient matching.
- **DCD donors: What risk and what benefit?**
Impact on donor pool.

Liver preservation: Where do we stand? Opening new ways...

- **What solutions to use and for what maximal duration? Is there a room for improvement?**
- **Round table on Practical recommendations on Donor Selection and Liver Preservation.**
- **What do we learn from machine perfusion in renal transplantation?**

MACHINE PERFUSION

Rationale and Current results.

- **Why and How to perfuse the liver?**
The present technology of Normothermic Regional Perfusion and Machine Perfusion.
- **Hypothermic Machine Perfusion, State-of-the-art** *Results and perspectives of HOPE trial.*
- **Normothermic Machine Perfusion (NMP), State-of-the-art.**
Preliminary results of COPE trial.

9th **ELITA**
Meeting
25th November

Pending Key points.

- **Normo or Hypothermic?**
Portal or Dual Perfusion? Preliminary results of the DHOPE trial.
Ischemic Type Biliary Lesions : impact of machine perfusion.
- **Use of rejected organs and resuscitation of marginal grafts by NMP. Anecdotal or routine?**
- **Controlled oxygenated rewarming of cold stored livers: an adjuvant way to improve liver recovery.**
- **Machine Perfusion: For good or for marginal grafts?**
Machine perfusion: at procurement or at transplant Center?
Rationale for a central «reconditioning» center
Defatting: is it possible?
Current and future trials.
Financial implications for national donor agencies.

REGISTRATION FEE

ESOT /ELITA Members
Eur 150

Non Member
Eur 250

For more information on ESOT and ELITA membership and to register please visit:
