Combined Membership

IHPBA members voted at the 2016 World Congress in São Paulo in favour of all memberships now being combined with membership of the local regional association. The regional harmonisation process has a focus on creating additional member value, and our regional associations are offering reduced registration fees for all combined members at their congresses. This means that IHPBA members can attend any or all of these regional meetings at reduced fees. Excellent member discounts are also available on the registration fees for the IHPBA World Congress.
